## **Quarter Ending September 30, 2010 – Summary of Activities.**

### **INVESTIGATION OF NEW OPPORTUNITIES**

The Corporation continues to assess new opportunities. In particular the Corporation is pursuing projects that have the potential for early cash flow and has reviewed a number of precious metals, base metals and energy related projects located in Africa. Expenditure on these evaluations has been kept to a minimum as most of the work has been completed in house, however, expenditure has increased in the current quarter as this evaluation work requires site visits. The evaluation of projects in Africa is ongoing and consequently expenditures are expected to increase during the next quarter.

The Appendix 5B Report for this quarter is an integral part of this summary and is attached.
