Argosy Minerals Inc.

INTERIM CONSOLIDATED FINANCIAL STATEMENTS For the Quarter Ended March 31, 2008 (Expressed in Canadian dollars)

NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited - Prepared by Management)
For the Three Months ended March 31, 2008 and March 31, 2007

1. Basis of Presentation

These consolidated financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles ("GAAP") and follow the same accounting policies and methods of their application as the most recent annual financial statements of the Corporation dated December 31, 2007 and should therefore be read in conjunction with those statements. These notes do not include all of the information and disclosures required by GAAP for annual financial statements. In the opinion of the Company, these unaudited interim financial statements contain all adjustments necessary in order to present a fair statement of the results of the interim period presented.

2. Project Assessment Expenditures

Project assessment expenditures for the 3 months ended March 31, 2008 consist of the following:

| Consulting and other fees | \$ 26,084 |
|---------------------------|--------------|
| Travel and accommodation | 14,094 |
| | \$ 40,178 |

3. Changes in Accounting Policies and New Accounting Developments

(i) Capital Disclosures, Section 1535

Effective January 1, 2008, the Company adopted Section 1535 "Capital Disclosures" which requires the disclosure of information that enables users of an entity's financial statements to evaluate its objectives, policies and processes for managing capital such as qualitative information about its objectives, policies and processes for managing capital, summary quantitative data about what the entity manages as capital, whether it has complied with any capital requirements and, if it has not complied, the consequences of noncompliance. Disclosures required by this standard are included in Note 5.

(ii) Going Concern - Amendments to Section 1400

CICA 1400, General Standards of Financial Statements Presentation, was amended to include requirements to assess and disclose an entity's ability to continue as a going concern. The new requirements are effective for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2008.

At March 31, 2008, the Company had working capital of approximately \$3 million, which is sufficient to fund its exploration programs, operating costs and working capital for the next twelve months. While the Company has been successful in raising its required funding from outside sources in the past, it cannot be certain that any such funding would be available in the future, or that funds would be available on terms acceptable to management. Management assessed the Company's net asset value, forecasted cash flow resources and future commitments and is confident that the Company will continue as a going concern.

(iii) Financial Instruments Disclosures, Section 3862 / Financial Instruments Presentation, Section 3863

Effective January 1, 2008, the Company adopted Section 3862 "Financial Instruments – Disclosures". This Section requires entities to provide disclosure of quantitative and qualitative information in their financial statements that enable users to evaluate (a) the significance of financial instruments for the entity's financial position and performance; and (b) the nature and extent of risks arising from financial instruments to which the entity is exposed during the period and at the balance sheet date, and management's objectives, policies and procedures for managing such risks. Disclosures required by this standard are included in Note 6.

(iv) Goodwill and intangible assets, Section 3064

The CICA issued the new Handbook Section 3064, "Goodwill and Intangible Assets", which will replace Section 3062, "Goodwill and Intangible Assets". The new standard establishes revised standards for the recognition, measurement, presentation and disclosure of goodwill and intangible assets. The new standard

also provides guidance for the treatment of preproduction and start-up costs and requires that these costs be expensed as incurred. The new standard applies to annual and interim financial statements relating to fiscal years beginning on or after October 1, 2008. Management is currently assessing the impact of this new accounting standard on its consolidated financial statements.

(v) International financial reporting standards ("IFRS")

In 2006, the Canadian Accounting Standards Board ("AcSB") published a new strategic plan that will significantly affect financial reporting requirements for Canadian companies. The AcSB strategic plan outlines the convergence of Canadian GAAP with IFRS over an expected five year transitional period. In February 2008, the AcSB announced that 2011 is the changeover date for publicly-listed companies to use IFRS, replacing Canada's own GAAP. The date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transition date of January 1, 2011 will require the restatement, for comparative purposes, of amounts reported by the Company for the year ended December 31, 2010. While the Company has begun assessing the adoption of IFRS for 2011, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

4. Capital Stock, Contributed Surplus and Stock Based Compensation

The Corporation is authorised to issue an unlimited number of common shares without par value.

a) Issued

| , | | Number of Shares | Amount |
|----|---|------------------|------------------|
| | Total Issued – March 31, 2008 & December 31, 2007 | 99,919,105 | \$ 46,991,771 |
| b) | Contributed Surplus | | |
| | | 2008 | 2007 |
| | Balance, beginning of year | \$ 1,264,482 | \$ 439,251 |
| | Stock based compensation | - | 856,164 |
| | Contributed Surplus allocated | - | (30,933) |
| | Balance, end of period | \$ 1,264,482 | \$ 1,264,482 |

Stock Options

The Corporation grants stock options to employees as determined by the Corporation's Board of Directors. Stock options granted to the directors of the Corporation are granted subject to approval of the Corporation's shareholders. All stock options vested on the date of approval.

The status of stock options granted to employees and directors as at March 31, 2008 and December 31, 2007 and the changes during the periods ended on those dates is presented below:

| | | March 31, 2008 Weighted | December 31, 2007 Weighted | |
|---|--------------------------|----------------------------|--|------------------------|
| | Shares | Average Exercise Price | Shares | Average Exercise Price |
| Options outstanding and exercisable - Beginning of Year Cancelled/Expired Exercised Granted Options outstanding and exercisable | 7,850,000 - - - | \$0.22 - - - | 7,100,000 (1,500,000) (500,000) 2,750,000 | |
| - End of Period | 7,850,000 | \$0.22 | 7,850,000 | \$0.21 |

| Details of Options Outstanding | Exercise Price | Remaining Life |
|-----------------------------------|------------------|----------------|
| 5,100,000 | A\$0.10 (\$0.09) | 3.1 years |
| 2,750,000 | A\$0.50 (\$0.47) | 4.1 years |

5. Management of Capital

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern in order to pursue the acquisition and potential development of mineral properties and to maintain a flexible capital structure which optimizes the cost of capital at an acceptable risk.

In the management of capital, the Company includes the components of shareholders' equity as well as cash and cash equivalents.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may attempt to issue new shares, issue new debt, acquire or dispose of assets or adjust the amount of cash and cash equivalents.

In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. The annual and updated budgets are approved by the Board of Directors.

In order to maximize ongoing development efforts, the Company does not pay out dividends.

The Company's investment policy is to invest its cash in highly liquid short-term interest-bearing investments with initial maturity terms of 90 days or less from the original date of acquisition, selected with regards to the expected timing of expenditures from continuing operations.

The Company expects that its current capital resources will be sufficient to carry out its exploration plans and operations through its current operating period.

6. Financial Instruments

a) Fair Value

The fair value of financial instruments at March 31, 2008 and December 31, 2007 is summarized as follows:

| | March 31, | 2008 | December 31, 2007 | | | |
|---|-----------------|--------------|--------------------------|--------------|--|--|
| | Carrying amount | Fair value | Carrying amount | Fair value | | |
| Financial Assets | | | | | | |
| Held for trading Cash and cash equivalents | \$ 3,217,728 | \$ 3,217,728 | \$ 3,341,050 | \$ 3,341,050 | | |
| Accounts receivable and prepaid expenses | 7,487 | 7,487 | 6,916 | 6,916 | | |
| Financial Liabilities | | | | | | |
| Accounts payable and accrued liabilities | \$ 217,615 | \$ 217,615 | \$ 172,622 | \$ 172,622 | | |

Fair value estimates are made at the balance sheet date, based on relevant market information and other information about the financial instruments.

b) Financial Risk Management

The Company's activities potentially expose it to a variety of financial risks, including credit risk, foreign exchange risk (currency), liquidity and interest rate risk.

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents and accounts receivable. The Company deposits the majority of its cash and cash equivalents with high credit quality financial institutions in Canada and Australia.

Currency risk

The Company operates in a number of countries, including Canada and Australia and is therefore exposed to foreign exchange risk arising from transactions denominated in a foreign currency.

The Company's cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities are held in several currencies (mainly Canadian and Australian dollars) and are therefore subject to fluctuation against Canadian dollar.

The Company had the following balances in foreign currency as at March 31, 2008:

| | Australian Dollar |
|--|----------------------|
| Cash and cash equivalents | 2,408,930 |
| Accounts receivable | 1,911 |
| Accounts payable and accrued liabilities | (227,519) |
| Net balance | 2,183,322 |
| Equivalent in Canadian dollars | 2,049,266 |

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. The Company manages liquidity by maintaining adequate cash and cash equivalent balances.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market interest rates. Current financial assets and financial liabilities are generally not exposed to interest rate risk because of their short-term maturity.

7. Related Party Transactions

During the quarter ended March 31, 2008, \$200,544 was paid or accrued to four directors of the Corporation, or to companies controlled by them, for director's fees, management consulting services and project management and assessment services.

In addition \$21,826 was paid or accrued to an Australian company and \$10,926 to a Canadian company, each controlled by a director of the Corporation for the provision of office facilities and personnel in Australia and personnel in Canada respectively. These services are reimbursed at cost, which approximate fair value.

At March 31, 2008, management and consulting fees and directors' fees payable amounted to \$35,688. These transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

Fees paid to each non-executive director do not exceed Australian \$30,000 per annum except for fees paid to the Chairman which are set at Australian \$40,000 per year.

ARGOSY MINERALS INC.

(the "Corporation")

Management Discussion and Analysis First Quarter Ended March 31, 2008

May 14, 2008

The selected consolidated financial information set out below and certain comments which follow are based on, and derived from, the consolidated financial statements of the Corporation, and should be read in conjunction with them. The Management Discussion and Analysis has been prepared as at May 14, 2008.

Description of Business

Since incorporation the Corporation has been exclusively a natural resource Corporation engaged in exploration for precious metals, base metals and diamonds. At this stage of its development, the Corporation has no producing properties and, consequently, has no current operating income or cash flow. The Corporation is a reporting issuer in British Columbia, Alberta and Ontario and trades on the Australian Stock Exchange under the symbol AGY.

Projects

MUSONGATI - Nickel, Cobalt, Platinum Group Metals, Burundi

Andover Resources NL ("Andover"), a wholly owned subsidiary of the Corporation acquired the Burundi Nickel Project in 1999 pursuant to a Mining Convention with the government of Burundi whereby Andover could earn an 85% interest in the project by completing a feasibility study for the development of a nickel/cobalt processing facility by the end of 2001 and by reimbursing the Burundi government for certain expenditures incurred on the Project.

The Musongati lateritic deposit was explored in the 1970's and 1980's. Studies carried out by these explorers resulted in the identification of a resource of 185 million tonnes of 1.31% nickel and 0.08% cobalt (non-JORC or NI 43-101 compliant). Anomalous grades of platinum and palladium had been recorded from the laterite as well as from the underlying basement rocks.

The nickel - cobalt laterites at Musongati are developed within the weathering profile above a layered igneous complex and are derived mainly from the weathering of a serpentinised dunite which has a primary nickel content of about 0.3%. Two types of ore are present in approximately equal proportions: limonite and saprolite. Nickel in the limonite ore type is tied to goethite whereas in the saprolite ore type it is related to serpentine group minerals and clay minerals.

The resource at Musongati is situated on three adjacent plateaux as a result of erosion of a single layer of laterite. The plateaux are referred to from west to east as the Geyuka, Rubara and Buhinda zones, of which Buhinda is the most significant and best defined.

Due to political instability in Burundi, the project had been subject to force majeure until May 2005 when force majeure was lifted due to improving security.

In June 2007, the Corporation filed a request for arbitration with the International Chamber of Commerce in Paris against the Government of Burundi as a result of its failure to issue Andover with an exploration licence.

Outlook

Existing Projects

The Corporation intends to pursue its claims against the Government of Burundi and if successful, expects to recommence activities on the Burundi Nickel Project.

New Projects

The Corporation continues to seek additional projects through which shareholder value may be enhanced and has focused on precious and base metals. The Corporation is investigating suitable projects on a global basis and has been active in examining precious and base metal opportunities in North America, Africa and the Pacific region.

Forward Looking Statements

This MD&A contains forward looking statements and information. Such forward looking statements are based on the Corporation's plans and expectations and involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Corporation to be materially different from any performance or achievement expressed or implied by such forward looking statement. See Risk Factors below.

Risk Factors

The exploration and development of mineral deposits involves significant financial risks. The success of the Corporation will be influenced by a number of factors including financing, exploration and extraction risks, political uncertainty and regulatory issues, environmental and other regulations.

In addition, the Corporation will periodically have to raise additional funds to continue operations from the sale of equity or the sale of some or all of its projects and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future.

Additional risk factors relating to the Corporation's activities are discussed in detail in its Annual Information and 20F filings. These filings may be reviewed at www.sedar.com.

Overall Performance

March 31, 2008 and March 31, 2007

The Corporation incurred a loss of \$168,794 for the quarter ended March 31, 2008 compared to a loss of \$193,526 for the quarter ended March 31, 2007. The reduced loss of approximately \$25,000 is mostly attributable to an increase in interest revenue due to increased cash balances following the capital raising in May 2007, the foreign exchange gain of \$167,000 due to the Australian dollar strengthening against the Canadian dollar and the Corporation holding substantial cash balances in Australian dollars, offset by the arbitration costs of \$105,000 and increased management fees of \$95,000.

Interest revenue of \$45,426 for the quarter ended March 31, 2008, is higher than interest revenue for the quarter ended March 31, 2007 due to increased cash balances as noted above.

During the quarter ended March 31, 2008 cash required for operating activities amounted to \$295,801 compared to \$195,833 for the quarter ended March 31, 2007. The increase of \$100,000 in cash required for operations resulted mainly from the increased management fees and arbitration costs, offset by an increase in non-cash working capital of \$45,000 and increased interest revenue.

Results of Operations

First Quarter 2008 to Fourth Quarter 2007

The Corporation incurred a loss of \$168,794 for the quarter ended March 31, 2008 compared to a loss of \$366,000 for the quarter ended December 31, 2007. The decreased loss in the quarter ended March 31, 2008 is mainly due to the foreign exchange gain of \$167,000 as noted above and a reduction in project assessment costs in the quarter ended March 31, 2008, offset by increased costs, management fees and arbitration expenses.

| Year | 2008 | | 20 | 007 | | | 2006 | |
|---|--------|--------|---------|---------|--------|--------|---------|----------|

| Weighted Average Number of Common Shares (000's) | 99,919 | 99,419 | • | | 95, | ,969 — | | — |

Other Quarterly Results

Project assessment expenditures reflect activities on the Corporation's projects with 2007 expenditures being significantly higher than in 2006 due to the Corporation increasing activity on the projects previously held in Sudbury, Canada and the pursuit of opportunities in Africa.

The fluctuation in income over the past eight quarters is mainly due to the foreign exchange gains and losses as a result of the fluctuating rate of exchange between the Australian and Canadian dollar and the Corporation holding a substantial portion of its cash balances in Australian dollars offset by increased interest income in the most recent quarters earned on increased cash balances following the capital raising completed in May 2007.

Project assessment expenditures increased in the quarters ended December, September and June 2007, compared to the same period in 2006, mainly due to the payment of option fees and exploration conducted on the Lac Panache, Fish Creek and Copper Cliff projects in the June quarter and increased activity in assessing projects in Africa in the September and December quarters.

Administrative expenses increased by approximately \$988,000 in the quarter ended June 30, 2007 and by \$503,000 in the quarter ended June 30, 2006 compared to the immediately preceding quarters, mainly due to the inclusion of stock based compensation expense of approximately \$856,000 and \$439,000 respectively, incurred on the granting of incentive stock options to directors and employees.

Liquidity and Capital Resources

The Corporation's cash deposits at March 31, 2008 totaled \$3,217,728 compared to \$3,341,050 at December 31, 2007. The Corporation continues to utilize its cash resources to fund project assessment activities and administrative requirements. Aside from such cash the Corporation has no material unused sources of liquid assets. As the Corporation does not have a source of income, cash balances will continue to decline as the Corporation utilizes these funds to conduct its operations.

The Corporation does not have any loans or bank debt and there are no restrictions on the use of its cash resources.

With cash balances of approximately \$3.2 million and current planned expenditures of approximately \$2.2 million, the Corporation has sufficient cash resources for planned activities over the next 12 months. Should the Corporation acquire new projects, increase its expenditure on existing projects or exercise its options to acquire projects currently under option it will be required to raise additional financing.

Commitments and Property Option Payments

The Corporation has no current property option or expenditure commitments.

Related Party Transactions

During the quarter ended March 31, 2008, \$200,544 was paid or accrued to four directors of the Corporation, or to companies controlled by them, for director's fees, management consulting services and project management and assessment services.

In addition \$21,826 was paid or accrued to an Australian company and \$10,926 to a Canadian company, each controlled by a director of the Corporation for the provision of office facilities and personnel in Australia and personnel in Canada respectively. These services are reimbursed at cost, which approximate fair value.

At March 31, 2008, management and consulting fees and directors' fees payable amounted to \$35,688. These transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

Fees paid to each non-executive director do not exceed Australian \$30,000 per annum except for fees paid to the Chairman which are set at Australian \$40,000 per year.

Proposed Transactions

The Corporation is currently evaluating new opportunities. Should it enter into agreements over any of these opportunities it may be required to make cash payments and complete work expenditure commitments.

Critical Accounting Estimates

The detailed accounting policies are discussed in the Corporation's annual financial statements however, the following accounting policies require the application of management's judgment:

- (a) *Mineral property valuations* Management uses its best estimate for recording any mineral property value based on the results of any exploration conducted, prevailing market conditions, similar transactions and factors such as stability of the country in which the asset may be located.
- (b) Contingent Liabilities Management evaluates any claims against the Corporation and provides for those claims, where necessary, based on information available to it, including in some instances, legal advice.
- (c) Income Tax Income taxes are calculated using the liability method of accounting. Temporary differences arising from the difference between the tax basis of an asset or liability and its carrying amount on the consolidated balance sheet are used to calculate future income tax assets or liabilities. Future income tax assets or liabilities are calculated using the tax rates anticipated to apply in the periods that the temporary differences are expected to reverse. Valuation allowances are established when necessary to reduce future income tax assets arising from loss carry-forwards to amounts expected to be realized.

Interim Controls over Financial Reporting

There have been no changes in the Corporation's internal control over financial reporting during the Corporation's most recent interim period that has materially affected, or is reasonably likely to materially affect, the issuer's internal control over financial reporting.

Mineral Property Valuations

Management uses its best estimate for recording any mineral property value based on the results of any exploration conducted, prevailing market conditions, similar transactions and factors such as stability of the country in which the asset may be located.

Contingent Liabilities

Management evaluates any claims against the Corporation and provides for those claims, where necessary, based on information available to it, including in some instances, legal advice.

Changes in accounting policies and new accounting developments

(i) Capital Disclosures, Section 1535

Effective January 1, 2008, the Company adopted Section 1535 "Capital Disclosures" which requires the disclosure of information that enables users of an entity's financial statements to evaluate its objectives, policies and processes for managing capital such as qualitative information about its objectives, policies and processes for managing capital, summary quantitative data about what the entity manages as capital, whether it has complied with any capital requirements and, if it has not complied, the consequences of noncompliance.

(ii) Going Concern - Amendments to Section 1400

CICA 1400, General Standards of Financial Statements Presentation, was amended to include requirements to assess and disclose an entity's ability to continue as a going concern. The new requirements are effective for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2008.

At March 31, 2008, the Company had working capital of approximately \$3 million, which is sufficient to fund its exploration programs, operating costs and working capital for the next twelve months. While the Company has been successful in raising its required funding from outside sources in the past, it cannot be certain that any such funding would be available in the future, or that funds would be available on terms acceptable to management. Management assessed the Company's net asset value, forecasted cash flow resources and future commitments and is confident that the Company will continue as a going concern.

(iii) Financial Instruments Disclosures, Section 3862 / Financial Instruments Presentation, Section 3863

Effective January 1, 2008, the Company adopted Section 3862 "Financial Instruments – Disclosures". This Section requires entities to provide disclosure of quantitative and qualitative information in their financial statements that enable users to evaluate (a) the significance of financial instruments for the entity's financial position and performance; and (b) the nature and extent of risks arising from financial instruments to which the entity is exposed during the period and at the balance sheet date, and management's objectives, policies and procedures for managing such risks.

(iv) Goodwill and intangible assets, Section 3064

The CICA issued the new Handbook Section 3064, "Goodwill and Intangible Assets", which will replace Section 3062, "Goodwill and Intangible Assets". The new standard establishes revised standards for the recognition, measurement, presentation and disclosure of goodwill and intangible assets. The new standard also provides guidance for the treatment of preproduction and start-up costs and requires that these costs be expensed as incurred. The new standard applies to annual and interim financial statements relating to fiscal years beginning on or after October 1, 2008. Management is currently assessing the impact of this new accounting standard on its consolidated financial statements.

(v) International financial reporting standards ("IFRS")

In 2006, the Canadian Accounting Standards Board ("AcSB") published a new strategic plan that will significantly affect financial reporting requirements for Canadian companies. The AcSB strategic plan outlines the convergence of Canadian GAAP with IFRS over an expected five year transitional period. In February 2008, the AcSB announced that 2011 is the changeover date for publicly-listed companies to use IFRS, replacing Canada's own GAAP. The date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transition date of January 1, 2011 will require the restatement, for comparative purposes, of amounts reported by the Company for the year ended December 31, 2010. While the Company has begun assessing the adoption of IFRS for 2011, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

Financial Instruments and Other Instruments

The Corporation holds certain cash balances in Australian dollars which are subject to exchange rate fluctuations and could give rise to exchange losses.

Other

Capitalization

The Corporation has 99,919,105 shares outstanding at May 14, 2008.

In addition, at March 31, 2008, the Corporation had 5,100,000 director and employee stock options outstanding and exercisable at Australian \$0.10 per share and 2,750,000 director stock options outstanding and exercisable at Australian \$0.50 per share.

Management's Responsibility and Oversight

The disclosures and information contained in this MD&A have been prepared by the management of the Corporation. Management has implemented and maintained a system of controls and procedures to ensure the timeliness and accuracy of information disclosed in the MD&A.

The Corporation's audit committee and Board of Directors review the disclosures made in the MD&A to ensure the integrity thereof.

Form 52-109F2 Certification of Interim Filings

I, Peter H. Lloyd, CEO and Director of Argosy Minerals Inc. certify that:

- 1. I have reviewed the interim filings (as this term is defined in Multilateral Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*) of Argosy Minerals Inc., (the issuer) for the interim period ending March 31, 2008;
- 2. Based on my knowledge, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings;
- 3. Based on my knowledge, the interim financial statements together with the other financial information included in the interim filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the periods presented in the interim filings;
- 4. The issuer's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures and internal control over financial reporting for the issuer, and we have:
 - (a) designed such disclosure controls and procedures, or caused them to be designed under our supervision, to provide reasonable assurance that material information relating to the issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the interim filings are being prepared; and
 - (b) designed such internal control over financial reporting, or caused it to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP; and
- 5. I have caused the issuer to disclose in the interim MD&A any change in the issuer's internal control over financial reporting that occurred during the issuer's most recent interim period that has materially affected, or is reasonably likely to materially affect, the issuer's internal control over financial reporting.

Date: May 15, 2008.

Peter H. Lloyd CEO and Director

I. Form 52-109F2 Certification of Interim Filings

- I, Cecil Bond, Director and Acting Chief Financial Officer of Argosy Minerals Inc. certify that:
- 1. I have reviewed the interim filings (as this term is defined in Multilateral Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*) of Argosy Minerals Inc., (the issuer) for the interim period ending March 31, 2008;
- 2. Based on my knowledge, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings;
- 3. Based on my knowledge, the interim financial statements together with the other financial information included in the interim filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the periods presented in the interim filings;
- 4. The issuer's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures and internal control over financial reporting for the issuer, and we have:
 - (a) designed such disclosure controls and procedures, or caused them to be designed under our supervision, to provide reasonable assurance that material information relating to the issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the interim filings are being prepared; and
 - (b) designed such internal control over financial reporting, or caused it to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP; and
- 5. I have caused the issuer to disclose in the interim MD&A any change in the issuer's internal control over financial reporting that occurred during the issuer's most recent interim period that has materially affected, or is reasonably likely to materially affect, the issuer's internal control over financial reporting.

Date: May 15, 2008.
