## **RINCON PROJECT 2,000TPA Li<sub>2</sub>CO<sub>3</sub> OPERATION PLANT & EQUIPMENT PROGRESS**

### **HIGHLIGHTS**

- ✦ **Plant and equipment procurement and delivery in progress, with;**
  - **German manufactured dryer/evaporator and vibrator equipment delivered**
  - **First batch of process tanks and reactors received**
  - **Chillers/coolers delivered and on-site installation completed**
  - **Press and belt filters from Asia delivery expected during April**

Argosy Minerals Limited (ASX: **AGY**) ("**Argosy**" or "**Company**") is pleased to advise further progress at the Rincon Lithium Project, located in Salta Province, Argentina, with plant and equipment manufacturing, procurement and delivery works proceeding for development of the 2,000tpa lithium carbonate production operation.

The Company confirms the evaporator/dryer, vibrator equipment and associated parts procured and manufactured in Germany have been delivered to site.

The remaining offshore plant and equipment items, such as the press and belt filters procured and fabricated in Asia, have an estimated delivery into Argentina during April (subject to no shipping delays).

The processing mill was built in the USA and already delivered.

The local plant and equipment items – engineered and fabricated in-country, such as 150kVA generators, industrial pumps, agitators and motors from local manufacturers/suppliers – have been delivered.

Longer-lead locally fabricated plant and equipment items, such as the chillers/coolers have been delivered and installed on site, the initial batch of process tanks and reactors have been delivered, whilst the industrial boilers are being prepared for scheduled delivery.

Other plant and equipment items – laboratory equipment, packing equipment, hoppers, other filters, valves and instrumentation are scheduled for delivery during April.

Argosy Managing Director, Jerko Zuvela said "**The Company's Puna operations team are continuing to progress the 2,000tpa lithium carbonate production operation development works, with plant and equipment delivery in progress at our Rincon Lithium Project.**"

**Each phase of completed works gets us closer to becoming only the 2<sup>nd</sup> ASX-listed battery quality lithium carbonate producer and cashflow generator during a period of record-high lithium prices, whilst also progressing toward the next stage 12,000tpa scale operations and beyond. We look forward to achieving our upcoming targets and commencing production operations this year at our Rincon Lithium Project."**

**Forward Looking Statements:** Statements regarding plans with respect to the Company's mineral properties are forward looking statements. There can be no assurance that the Company's plans for development of its mineral properties will proceed as expected. There can be no assurance that the Company will be able to confirm the presence of mineral deposits, that any mineralisation will prove to be economic or that a mine will successfully be developed on any of the Company's mineral properties.

Argosy confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. Argosy confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

## ASX ANNOUNCEMENT

### ASX Listing Rules Compliance

Argosy advises references to the Company's current target of producing 2,000tpa of high purity battery quality lithium carbonate product at the Rincon Lithium Project should be read subject to and clarified by the Company's current intention that the 2,000tpa production target does not extend beyond a two-year period from the Clarifying Announcement (lodged 10<sup>th</sup> February 2021, available at [www.argosyminerals.com.au](http://www.argosyminerals.com.au) and [www.asx.com](http://www.asx.com)).

At the conclusion of the two-year period, it is the Company's current intention that, subject to feasibility, finance, market conditions and completion of development works at the Rincon Lithium Project, the Company's 10,000tpa production target will apply. The current 2,000tpa production target is intended to form a modular part of the 10,000tpa operation from its commencement.

Argosy further advises that references in this ASX release in relation to the 10,000tpa production target are extracted from the report entitled "Argosy delivers exceptional PEA results for Rincon Project" dated 28 November 2018, available at [www.argosyminerals.com.au](http://www.argosyminerals.com.au) and [www.asx.com](http://www.asx.com). Argosy confirms that it is not aware of any new information or data that materially affects the information included in the Announcement and, in the case of the Production Target, Mineral Resources or Ore Reserves contained in the Announcement, that all material assumptions and technical parameters underpinning the estimates in the PEA announcement continue to apply and have not materially changed. Argosy confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the PEA announcement.

## ABOUT ARGOSY MINERALS LIMITED

Argosy Minerals Limited (ASX: AGY) is an Australian company with a current 77.5% (and ultimate 90%) interest in the Rincon Lithium Project in Salta Province, Argentina and a 100% interest in the Tonopah Lithium Project in Nevada, USA.

The Company is focused on its flagship Rincon Lithium Project – potentially a game-changing proposition given its location within the world renowned "Lithium Triangle" – host to the world's largest lithium resources, and its fast-track development strategy toward production of LCE product.

Argosy is committed to building a sustainable lithium production company, highly leveraged to the forecast growth in the lithium-ion battery sector.
